PULLMAN AND BELLAMY.

The Commission appointed by the President to find out all about the Pullman strike has commenced briskly, and promises to find out not ony all about the else. It has permitted itself to listen to the views, theories and suggestions of the most eminent political economists sociologists and savants of Chicago, and it is needless to say that these experts have contributed information with a kindness which knows no bounds. If the three or four thousand years it will have known by the Chicago philosophers.

Without waiting for the full evidence which is to be expected when the philosophers have finished talking we may in- served to fill the Criterion nightly. terject a suggestion that the expert who proposed Bellamyism as a remedy for clated with Charles Wyndham twenty Pullmanism was off his base.

Pullman's town is not exactly Bellany's town, but it is as near an approach to it as the world has ever seen or is ever likely to see. The main difference between them consists chiefly in that wide nargin which always divides theory from practice, and contrasts the hard facts of real life with the pleasant visions of dreamland.

The spectacle of a grave Commission representing the authority of the Government of the United States, soberly listening to a Chicago philosopher who suggests the adoption of Bellamyism as a remedy for Pullmanism turns a sad story into "a cause of innocent merriment." and relieves us of all apprehension as to any harsh feeling growing out of the investigation. The worst that can come from it will be a new comic

IN TIME OF SAFETY, PREPARE.

Europe again has an anxious eye or points where cholera has made its appearance. Austria is disquieted. Some have been prostrated by the disease at Bielitz, In Holland, cases of cholera are reported in several cities and districts. St. Petersburg and other Russian places are experiencing severe attacks from the plague. Emperor William has countermanded the orders for army manoeuvres in East Prussia, owing to the threatenings of cholera. And finally, a fatal case of the dread disease has been reported at Battersea, a part of London.

All this is of vital interest to the United States. It is now late in the Summer, and, as not even a suspicious case has thus far made its appearance on this side, it is possible, and also probable, that we shall escape a visitation for this season. Nevertheless, the watch at all points where the plague might force its entrance is to be kept up vigi lantly. And the country must be on guard not alone for the balance of this season, but just as sharply for next Summer. It is not too early to impress the importance of having all precaution ary measures in full force when the oming Winter closes.

Cholera germs have a great capacity in the way of lying dormant during th months and springing into full life with the coming of warmer weather It will be the duty of the quarantine and sanitary authorities of the country, at all ports of entry, to keep a sharp eye on the European danger points now and upon what comes from them next Spring and Summer.

THE NEW RECORD.

America's admiration for the Campa nia's ocean-breaking record is not at all lessened by the reflection that the Campania is the product of British brains, skill and capital, and that her rich earnings go into British pockets. We do not follow English example in grudging praise to a successful rival, that two of her servants had levanted and the latest triumph of English ship- to the United States with the proceeds building is admired as heartily in New of \$1,000 worth of Sylvia's jewelry, mainly

The Campania is the fastest steamer that crosses the ocean, and the fastest steamer is the safest. There is a general impression that the great speed of modern vessels is dangerous. truth is that in order to attain this great speed the vessel must be so strongly constructed and so perfectly designed as to reduce every element of danger to a minimum. The only possible danger to such a vessel as the Campania is a collision, which would be equally dangerous to any other vessel; all other possibilities of disaster have been practically abolished.

The new time record fixes the future of the ocean ferry. These steamers are built chiefly for the use of Americans Now that it has been proved that the American who has no time to lose can breakfast in Queenstown on Sunday and George Grossmith is to have a part, will take his dinner in New York on Friday we shall expect to see this made the regular time for future competitors for 1896. our custom.

Senate Senator Floquet, who was in weight. The price is about 25 cents pe the tribune, was suddenly stricken with pound. Amusement Circle of the English Metropolis to Be Enlarged.

(Copyrighted, 1894, by the Associated Press.) LONDON, Aug. 18.-As expected, Lady Henry Somerset's attack upon the so-Commission can only remain in session called "living pictures" has spread the craze for that sort of thing, and taba chance of knowing as much about the leau vivants of all descriptions and of Pullman strike and other things as is the most unblushing nature are to be seen even in the suburban halls.

Alfred Dampier, an Anglo-Australian The perennial farce, "Hot Water," was revived on Wednesday last and with ten plays "made in Australia," George Hawtrey assumes the role assotization of Rolf Boldrewood's "Robbery years ago.

At the Galety there has been this week a not over successful revival of "Jack Sheppard." But the traditions of Nellie Farren and Fred Lealle were too strong for the newcomers.

Lillian Russell's rehearsals of "The Queen of Brilliants" are being pushed actively, and the prompter and accompanist have gone to Queenstown in a 'special saloon carriage," with a plane to meet the Aurania and bring the singers expected to arrive on her to London. Rehearsals will take place in the special cars while en route Queenstown to Dublin, and while trav elling between Holyhead and London. Mme. Amadi has been engaged in the place of Laura Joyce.

Solomon, the composer, is following in the footsteps of Corney Grain and George Grossmith and starts his own show in the Autumn, doing monologues and duologues with George Hawtrey.

The theatrical centre of London has long been as distinctly restricted as is the political centre of London. Between of her soldlers of the Cracow garrison St. James street and the Law Courts are situated all the theatres that count for anything save the Court and Princess's. The Grand, at Islington, is considered in the provinces, the Elephant and Castle and Surrey are "over the water," the Britannia and the Pavillion are in that terra incognita, the East End.

But all this is to be changed. Before the year is out two theatres, now building, will open. Plans of another are in the architect's office. These three are going to produce plays of the first class, and serve the people in the quarter where they live. The Brixton Thea tre, the walls of which are now ready for the roof, will seat 2,500 people, and is to be opened by Henry Irving, Dec. , with "The Bells," The second week will probably be given up to "Olivia." Irving is to be followed by the Ken dals for two weeks, and they will be succeeded by a pantomime for the usual run. Prices will be somewhat lower than on the Middlesex side of the Thames.

The Camberwell Theatre, which will open at the end of September, will seat about 2,500 persons, and a theatre of similar size is to be begun at once in Kensington.

The Japano-Chinese war has already been heard of in theatreland. Charles Lauri has invented a "fantastical, demoniacal Japanese pantomime," which is announced at the Paragon Music Hall. Hoyt's "A Trip to Chinatown" will soon be seen at Toole's Theatre, produced by an American company under the management of Mr. William Terriss, That old stand-by of the weary funny

man paragrapher-an actress's diamonds -has bobbed up serenely once more. Syivia Grey, Mrs. Fenwick, the charming her honeymoon the other day, found diamond rings and prooches, and all of them tributes that her twinkling feet had won from the front row. The jewelry was pawned; a suit has been begun for its recovery, and the law's lazy hands are now stretched out to capture the

thieves. Every little while some Polonius of the Press stips behind the curtain and discovers something marvellous in the lives of the people of playland. We are now told that Mr. George R. Sims before he learned the art of play-writing studied carpentering and construction in a wholesale furniture shop. Albert Chevaller, the "costers' laureate," was brought up with the idea of becoming

The Mother Brought to Court on Charges of Neglect.

Agent King, of the Gerry Society, brought a peculiar case to the attention of Justice Ryan, in the Tombs Po lice Court, to-day. He had as a prisoner Tonetti Cifir, twenty-three years old, of

The child came to court with its Buddhists into one great nation that, his features were exposed to view.

The child's face looked like that of a dead person. It was emaciated and the white skip lay in folds over the small bones on the face. The body was also covered with loose flesh.

According to the story of the mother the child is what is known as "death-She says she witnessed a played over 400 times in Australia, and death just previous to its birth, and that is the only way she can account for its is the only way she can account for its appearance. During the day there is much more life in the bouy than at morning or night.

When the child was brought to court this morning it was with difficulty that its breathing could be heard. By 10 o'clock, however, it had livened up and could cry so it could be heard at a distance of five feet.

Agent King first saw the child last

tance of five feet.

Agent King first saw the child last Wednesday morning, at its home. He saw no one there but an old woman. At first she denied there was a child there, but in a few moments she went over to a corner of the room and picked up the baby and held it up by the legs. He ordered her to procure medical attention at once. This order was not heeded.

Justica Pura tired.

Justice Ryan discharged the woman with instructions to go at once and with instructions to go at once and procure a doctor. If the child dies, the Judge informed her, she would be held responsible.

Mrs. Cliff promised to do this. The child's father, Pocililo, is a bootblack and a strong, ruddy man, while the mother is a large and healthy-looking

DRUGS CHANGED HIS COLOR.

Medicine for Rheumatism Likely

to Kill a Negro.

(Hy Associated Press.) TOLEDO, O., Aug. 18.-Edward Points. the colored man who created a sensation some months ago by a sudden chang in his complexion, is now in a precari ous condition. According to the state ment made by Points, he has been taking for a long time a preparation put up by some patent medicine house for

up by some patent medicine house for rheumatism.

His skin commenced turning white in spots and the cuticle on several portions of his body was entirely removed. He was removed to the County Infirmary, and the attending surgeon stated that the discoloration was due entirely to the medicine he had taken. Just what the drug is composed of no one knows. Points's color has now changed from white to a deep yellow, and there is little chance of saving his life.

An old story: In the Summer of 1877 Robert

shall gather round the flickering spirit of Rober G. Ingersoll the natural death-threes of the redoubtable Colonel will be held up by the bright student of Croxler Theological Seminary as a warning example." Great is the polished brase that leaves from Reva." and "D. Da." But the "late" Voltaire

Husbands and Wives.

To the Editor: M. A. Reid is right as far as he mes, but I seems he lacks courage to carry out his con-viction, or dares not or is incapable of expressing it, and is, furthermore, a little bit one-sided withal. He should say, "The so-called happy marriages are those where either one or metimes the 'wife.'

Shades of courtship and altar vowa! What Carrying out his conviction to its logical conclusion, rightly interpreted, would signify that marriage pure and simple is a failure, and ought to be, and soon will be, by all who can brush the cobwebs of dving becom where are stored the relics of barbariam are clean. and obsolete forms sans substance.

Though marriage is a failure, love, the sprightly

and buoyant bow-boy, is a living reality that nothing will ever daunt, least of all the vain eremonies of Church and State; and neither Church nor State, by their abominable bungling machinery of interference in love affairs, can give a new lease of life to the little god once the life-chord is severed. And here we have what we may rightly call

the living death: men and women striving with all their might, on account of stupid vows once ade, to live the life of death over the corpse of love, sometimes dying a natural death, sometimes a violent one; sometimes poisoned by the times a violent one; sometimes poisoned by the vile venom of jealousy, deceit, brutality and luxuriant growth of hair, it certainly tyranny. Love needs free range to be wholethen, but love's relations are only for the intelligent and sovereign mind, not for adult "in-fants" who marry and yow great promises only BROM BONES.

Another Cigarette Fiend. To the Editor:

I am one of the cigarette fiends, and I would Chance for Populist Lawmakers. like very much to have some reader of "The The Populists who think all evils can be cured "Evening World" tell me how to break myself of the habit.

Every night I make up my maid that I will

not smoke another cigarette, and every morning after breakfast I feel as if I had to have one, and then I smoke them at intervals all day. I he must dance a few steps just to relieve his and in the Winter time if I catch cold the feelings before he settles down to hard work in cough lingers on all Winter; otherwise I am ver healthy. I really want to stop this permissions habit, but cannot seem to, so I wish some one who has

een a cigarette fiend and stopped it we Force is Everything.

To the Editor: S. O. Blunden says that "eternal punishme depends not on resurrection, but on natural im-mortality." This it not quite true. The spirit A KAPLAN

Diet for Washed-Out Blondes.

Those pale little women, with straw

colored

complexions, skeleton figures moonlight eyelashes and prominent shoulder blades and elbows need nurs sunned and aired daily, given sleepthose invalid foods that are all nourish ment and no tax on the digestive or gans. Here, for example, is a flesh blood and brain maker. Mix a table-spoonful of oaten meal with enough vater to make a smooth paste; por into a pint of boiling water and cook slowly for half an hour, stirring it all the while to prevent scorching. Season spoonful of wine or good brandy. Cut off the tea and coffee and drink sweet milk, with a teaspoonful of French

A Very Good Brenkfast

Boiled Rice. Powdered Sugar. Fried Ham. Broiled Apples.

Rolls.

Coffee.

Note.—Sweet cream, which is rich in fats, agrees with many persons who cannot direct milk. Some of these choice peanut-fed, honey-cured hams, that cost 35 cents a pound are too precious to broil, the loss being greater on a grill than a pan. Have the butcher cut it like chiphere and fry on a quick fire. Serve with thick slices of sweet apples.

Cooks and the Complexion. Professional cooks have cures for bac omplexions that cure, which is more than can be said for the professional complexion restorers. The point to be borne in m.nd is this: If the digestion is all right the complexion will be about the same. People who have work to do and duties to perform must eat, but in the round of vacation and recreation it is a capital idea to change the diet, or ular diet by degrees-breakfast on bread and milk, lunch on vegetable soup or a old-fashioned lard are all excellent. If soft egg, have milk and cinnamon at 4 the head is soaked with bay rum every o'clock and dine on beef tea and black day, it will be clean, and the hair will toast. These are highly nutritious arti-

cles and may be made very agreeable They will comfort the stomach and the

may be enriched and made produc

The cantharides is a preparation of Spanish files, and has the virtue of drawing well, the ammonia will help to stimulate the scalp; the glycerine will soothe, heal and nourish, and the bay rum will invigorate, and, at the same time, cleanse. Use daily for two weeks and then semi-weekly. It should be rubbed into the scalp and then taken out with a stiff brush.

Blackberry Pudding. Beat together the yolks and whites of

three eggs, and when light stir in two cupfuls of milk, three and a half of flour, a pinch of salt, a tablespoonful of butter and two heaping teaspoonfuls of baking powder. Best all the while as the several ingredients added, stir in a pint of blackberries and turn the batter into a greased me Cover closely and steam in a kettle of coiling water for three hours.

Cheap Silk Waist.

At a special sale of silk waists up in Shoppersville, the woman with a little money, say \$3 or \$13, will be able to get something very nice. The models are after the so-called French waist, that

and most artistically trimmed with bite of lace, knots of silk and soft bands at stant that the system assimilates all the neck and belt. All the silks are the arrangement of lace makes them there is an extra charge of \$1 for bones parts found in wheat. On the basis of The white pineapple silks, sold at \$2.00 or so, are really a temptation. All they need is a stock and ruffle to become court bodice, to go with a tailor suit, These goods cannot be duplicated at home for the money.

Market Girls of Paris. Some lovely types of animal beauty

may be found among the dairy, fruit and salad booths of the great "Central Market" of Paris. Here is where artists, sculptors, glass painters and illustrators go for national types and native beauty. The young women are always bareheaded and brown as nuts, but they have a coquetry of their own that is often irresistible. Nothing but satin could compare with the gloss they get on their hair. Like Carmen, they have an eye for colors. They wear the roughest of dresses, but under the average is a custom-made corset. And such figures! Most of the collars are turned in, and poise or knot of green, must be seen to be appreciated. Every motion is grace, every article-even the tinfoll losenge of green leaf a la Venus in her shell-is

Charcoal Dentrifrices.

While the enamel of the teeth is very hard it is, after all, only lime, and any scratch is liable to injure it. Hence the danger of salt, ashes and charcoal that thoughtless people often use. For the sake of a graceful old age, if nothing else, don't use these things. Good teeth are too precious to b ill-used. Charcoal is good, there is no denying that, but unless it is properly prepared it will cut the gums, scratch the teeth and injure the health of the mouth. Here is the advice of one of the best dental surgeons in New York, on the subject of charcoal dentifrices. " Eat bread crusts, roll crusts and toast; be sure to chew it well; let the soft bread go to the poor.

Light Foods Best for Summer.

Heavy desserts are as much to be avoided during the warm season as neavy meats and other food material adapted to the colder temperature of Winter. Greasy rich ples and puddings have no proper place in a Summer dietary-if, indeed, they have anywhere or at any season of the year. Light batter pudding may be indulged; but for most palates cold custards, creams and iced

desserts are greatly preferred. An Odorous Cosmetle.

Stew a few small onlons in milk, stir in a little oatmeal, season to taste, and when the vegetables fall apart out of sympathy for their own tenderness, deyour hot and go to bed. This ablebodled gruel is excellent for the complexion and a good cold cure. Some vegetables render scavenger service to the alimentary canal, and the onion is perhaps the most valuable of this class of foods. The consumer owes it to her fellow-woman to keep her mouth shut

while on an onion gruel diet. To Make the Hair Grow.

Keep the head clean, cool and bare as nuch as possible. Dandruff is decayed tissue and very unpleasant to have about. It is the easiest thing in the world to get rid of it. Soap, warm water and hair brushes are sure cures. There is nothing like cleanliness to make the hair grow. If there is not ter, vaseline, melted tallow and

grow unless the ground is barren. Green Foods Are Summer Foods, A generous use of vegetables is to be commended and encouraged during the Summer, not only because this is the season of vegetable growth, but because they are well adapted to the requirements of the system at that time. But one thing should always be borne in mind-no vegetable is wholesome unless it is fresh and in perfect condition. Everything which has begun to deteriorate in quality is a source of danger

rather than of health.

Milk of Roses. Milk of roses comes as near being & wrinkle cure as anything in the drug store. To be brutally candid, there is no cure, but the following balm is slightly stringent, and by lightening the skin presses out a few lines. Boll gum bensoin in spirits of wine until a rich tincture forms, or, better still, buy 10 cents' worth of tincture of benzoin. Put a teaspoonful in a glass of water, wash the face, neck and arms and let if dry. This gives the skin a sweet smell and

aded cheeks a bit of bloom Good Liquid Dentifrices.

Here are a few recipes for mouth washes, warranted harmless and highly recommended for getting a bad taste out of the mouth:

Water, 1 pint; aromatic vinegar, 1 teaspoonful; tincture of myrrh, 1-2 ounce; powdered borax, 1-2 ounce. Water, boiled, 1 pint; borax, 1 ounce; spirits of camphor, 1 teaspoonful; myrrh,

Water, 6 ounces; orange-flower water, ounces; eau de cologne, 5 ounces; glycerine, 1 ounce. To Soften the Hands. Melt a pound of white castile soap

teaspoonful.

meal. Use this preparation while washing the hands, and their improvement will be surprising. Table Talk.

over the fire with a little water. When

melted, perfume with a drop of ottar of rose and stir in half a cupful of oat-

Rapid eating is slow suicide. Eat slowly. live, and be merry. Fish and oysters are easily digested. An hour should be given to dinner, and one or two hours of rest should follow the meal. Big dir ners may be harmless in Winter, but they are harmful in Summer.

Ventilate the Kitchen

Poorly ventilated kitchens make po after the so-called Frénch waist, that cooks by destroying the sense of tasts is slightly draped, invisibly fastened and smell.
